

## SAN110

(6904-100139 <00>)

### IMPORTANT SAFETY INSTRUCTIONS - SAVE THESE INSTRUCTIONS

Thank you for choosing a Sanus Accents wall mount. The SAN110 is designed to mount LCD flat panels with VESA (Video Electronics Standards Association) hole pattern up to 200mm x 200mm and weighing up to 100 lb [45.5 Kg] to a vertical wall. It will allow the television to be pulled out 9.5" [241.3 mm] from of the wall. It will allow you to swivel the television  $\pm 30^\circ$  (may vary with size of television), tilt  $+5^\circ$  to  $-15^\circ$ , and have a  $\pm 6^\circ$  roll control.

#### CAUTION

Do not use this product for any purpose not explicitly specified by Sanus. Improper assembly may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the assembly, contact Customer Service or call a qualified contractor. Sanus is not responsible for damage or injury caused by incorrect assembly or use.

#### WARNING

**This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children!**

#### CAUTION

This product is designed for use in wood stud walls only! The wall must be capable of supporting up to five times the weight of the monitor and mount combined. If you have any doubts about the ability of the wall to support the monitor, contact Customer Service, or a qualified contractor.

# 1: Attach Plate to Wall

## CAUTION

Do not overtighten lag bolts [17]. Tighten Lag Bolts until the Lag bolt Washer [12] is pulled firmly against the Wall plate [01]. If there is a layer of drywall or other material, this drywall or other material may not exceed 1/2 inch (13 mm) in thickness. Failure to heed this caution may result in property damage and/or personal injury.

**NOTE:** The TV will be vertically centered on the Wall Plate once it is mounted.

## 2: Attach Optional Brackets

# 3: Install Monitor Brackets

For Televisions with Flat Backs

## 4: Attach Monitor to Plate

## 5: Add Safety Bolts

### CAUTION

Be sure the Safety Bolt [10] is tight. A loose Safety bolt will result in an unstable installation which may result in property damage and/or personal injury.

**NOTE:** Lower Hole on transfer bracket may be used to add a padlock for added security.

## 6: Cable Management

### CAUTION

Do not run cables through a pinch point. Running cables through pinch points may result in damage to the cables and/or personal injury.

Before beginning cable management pull the television into the position as far from the wall as possible. Leave some slack in the cables so that during motion so there is no added tension on the connectors. Wire Tie Clips **[11]** can be attached to the holes in the top and the bottom of the Arm Assembly **[02]** by simply pressing them into place as shown in the Detailed View of Diagram 7. Wire Ties **[18]** can then be added to the Wire Tie Clips **[11]**.

## 7: Adjust Left/Right Swivel

### CAUTION

Avoid potential injuries or property damage! Remove the safety bracket **[B]** only to adjust the swivel tension nut **[N]**. Be sure to replace the safety bracket after adjusting the swivel tension nut. The hex hole in the safety bracket must seat over the swivel tension nut.
